

## **Cinnamon Apples**

This is just a delicious way to use up excess apples!

Peel or not peel...up to you. I actually prefer them not peeled. Slice the apples and add to a medium saucepan. Add Sweet & Saucy Cinnamon Caramel...the amount depends on your quantity of apples. Just let them cook until they are as soft as you like, it may take 45 minutes or so. Cover the pan so the moisture stays in there. Easy Peasy!

**Serve those delicious apples over ice cream, cake, waffles, pancakes, beside pork chops or just by themselves. They are just delicious. Enjoy!**
